PROVISIONAL ELECTION OF SPECIES

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Election of Species requirement mailed on April 7, 2005, applicants elect, with traverse, the invention of Species I, Figure 12. Claims 1-4, 8, 9, 11, 12, 15, 19, 20, 22-25, and 27 are readable on the elected species.

Applicants traverse the outstanding Election of Species requirement on the grounds that it has not been established that it would be an undue burden to examine each of the noted inventions and claims together.

Under M.P.E.P. 803, an election requirement is not proper if a search and examination can be made without a serious burden on the examiner.

MPEP 803 specifically states:

Restriction – When Proper

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

GUIDELINES

[A] serious burden on the examiner may be *prima facie* shown if the examiner shows by appropriate explanation of separate classification, or separate status in the art, or a different field of search as defined in MPEP § 808.02.

The Election of Species requirement has not established, by appropriate (or any) explanation, that examining each of the claims would result in an undue burden. Accordingly, Applicants respectfully request that each of the noted inventions and claims be examined on their merits. Alternatively, Applicants request a *prima facie* showing that a search and examination cannot be made of the entire application without a serious burden.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
